4*to*, *Berolini*, 1843.

It is much to be regretted that so extensive and interesting a Collection of Mohammedan Coins as the present should be separated. The Collection has been formed by Dr. Pietraszewski during much travel and a long residence in the East. It embraces the Coins of no less than Forty-five Dynasties of the Mussulman Sultans who ruled successively in those Countries. The greater portion have been hitherto undescribed, and unknown to the Numismatic world, and include many very interesting and rare specimens of the Glass Money.
